

Decent Homes for All !

Editor: **Cllr. Neville Summerfield**

Dear Resident,

You have recently benefited from some improvements carried out by Birmingham City Council. Over 700 properties south of Bells Lane alone have benefited from the decent homes programme this financial year. These have mainly been new doors but other work has also been carried out on some properties.

This is a clear commitment from the Conservative led council to its council tenants. After year upon year of neglect under Labour, the tenants of Druids Heath are at long last seeing some visible improvements to their homes with more to follow.

In the unlikely event that any promised work has not been carried out, then please contact me on the above numbers.

Further commitment is also demonstrated by the tower block re – roofing programme. Most blocks are on the list.

New opportunities for community engagement

There is a new energy in Druids Heath:

- Regeneration consultation
- The emergence of PRODH, a community group
- The emergence of the all new Forum
- The creation of a housing liaison board

If you would like to know more, just call Neville on 0121 443 1267
